Center for Data Insights and Innovation
Data Exchange Framework Information is Power Webinar Series: The Impact of
Data Exchange Under the DxF & Key Program Updates
Webinar #5 Q&A Log (9:00 AM – 10:00 AM PT, January 19, 2023)**

The following table shows comments that were entered into the Zoom Q&A by public attendees during the January 19th webinar:

Count	Name	Comment	Response
1.	Melanie Slocum	Is there a plan to have HMIS, the homeless data bases to connect to this eventually?	live answered
2.	Kerry Jenkins	How will the data submitted be reviewed/edited to ensure that data that submitted by multiple entities is not duplicated in the portal/duplication of submission is finessed to represent one service for the patient? Example, PCP who is part of an FQHC contracted with an IPA provides an office visit and submits claim for that visit to IPA. The FQHC will submit the data, the IPA has this as part of the IPA data and will submit again, the health plan has this received through encounter data and will also submit. In this example the same claim is submitted three times, each from a different submitting entity.	Broadly, the Data Exchange Framework outlines "rules of the road" for health information exchange in California. It will not comprise a single entity collecting/reviewing data. For more information on the common Data Sharing Agreement, please see our DxF website or the DSA FAQ, available here: https://www.chhs.ca.gov/wp-content/uploads/2022/12/Data-Exchange-Framework-FAQ-2022-12-28.pdf . Thanks for the question.
3.	STEPHANIE REPERT	Will there be a recording and access to the ppt after the recording?	Thanks for joining, Stephanie. Yes, the recording and presentation will be posted to the DxF website after the meeting. https://www.chhs.ca.gov

4.	Genia Koziarski	Is DSA only for those 6 signatories to sign and not the HIO applying to be a designated QHIO? Also, is March when we should be expecting the release of part C & D (Functional Capabilities & Operations)of the QHIO Application.	live answered
5.	Olga Danilova	i am CLIA Laboratory director at the acute care hospital. What is my role?	Please see the Data Sharing Agreement FAQ for more information on your potential role - https://www.chhs.ca.gov/wp-content/uploads/2022/12/Data-Exchange-Framework-FAQ-2022-12-28.pdf - which we'd encourage you to discuss with your legal team. Thank you for joining.
6.	Lucy Johns	Please create scenario that reassures consumer/patient of security of the transactions you outlined. Esp the first one: only one possible reaction of the patient is shown. Another could be: who's seeing all my private medical information?!	live answered
7.	Michael Marchant	do QHINs need to apply to be QHIOs in CA	live answered
8.	Lucy Johns	Thanks. ;-)	
9.	Michael Marchant	so all organizations will need to connect with a QHIO to be compliant	live answered
10.	Robert Leonard	Our organization currently subscribes to two HIE networks -	

Count	Name	Comment	Response
		<p>Care Quality and CommonWell. The Community Health Centers in our area use OCHPRHIO, which utilizes the eHealth Exchange network. Will the DxF work as an additional network connection that we both need to add? Or will the DxF be a place for such existing networks to exchange information through a HUB? Can you provide more details about how the data is exchanged through the DxF?</p>	
11.	Casey Rockwood	<p>Are social service programs (IHSS, Child welfare, CalSaws) systems going to be required to connect to some form of Data Exchange or QHIO? Will the State be managing those connections as these are State managed systems?</p>	live answered
12.	Michael Marchant	<p>or has there been a determination that exchanging compliant data in a different form/manner (direct connections, national networks etc) would not be sufficient</p>	live answered
13.	Jennifer Martinez	<p>Since social service providers are encouraged to participate at this time (though not required), is the format in which they would share data up to them to decide? Some likely don't have data that complies with HL7 CCD or FHIR, or an ADT.</p>	live answered
14.	Jonathan Howell	<p>Considering that the library of policies and procedures is not yet finalized, my organizations are uncertain about signing the DSA. What assurance can I pass back to my board executives to increase confidence?</p>	<p>Under AB 133, all mandatory signatories must sign the DSA by January 31, 2023. Some of these organizations, such as smaller physician practices and clinics,</p>

Count	Name	Comment	Response
			<p>rehabilitation, long-term acute care, psychiatric, and critical access hospitals, and smaller rural acute care hospitals, will have until January 31, 2026 to fully implement the Data Exchange Framework even though they signed the agreement in January 2023. Please email us if you have any additional questions. Thank you for the question - and joining.</p>
15.	STEPHANIE REPPERT	<p>How to sign up for future session. There isnt a schedule on the website you shared earlier</p>	

Total Count of Zoom Q&A comments: 15
