## **Checklist for Research Involving Pregnant Women and Fetuses**

Principal Inve	estigator (La	st, First): Protocol # (XX-XX-XXXX):	
Project Title:			
		oject involves only a survey or interview with pregnant women and <b>does not</b> include any biomedical or checklist <b>does not</b> need to be submitted	
		opriate, preclinical studies (including studies on pregnant animals) and clinical studies (including vomen) been conduced that provide data for assessing potential risks to pregnant women and	
Yes	No		
	If Yes,		
	Is the risk to the fetus caused solely by interventions or procedures that hold out the prospect of direct benefit for the woman or the fetus?		
	Yes	No	
	OR		
	If there is no prospect of benefit, is the risk to the fetus not greater than minimal and the purpose of the research is the development of important biomedical knowledge which cannot be obtained by any other means?		
	Yes	No	
2. Is the risk	minimized a	s much as possible for achieving the objectives of the research?	
Yes	No		
3. Will inform	ed consent	pe appropriately obtained?	
Yes	No		
4. For resear both the father		penefit solely to the fetus (not the pregnant woman), has informed consent been obtained from other?	
Yes	No		
	If "No,"		
	Is the father unable to consent because of unavailability, incompetence, or temporary incapacity or did the pregnancy result from rape or incest?		
	Yes	No	

no direct bene	th of direct benefit to the pregnant woman, has informed consent of the pregnant woman been obtained? If effit to either pregnant woman or fetus when the risk to the fetus is minimal and the purpose of the research is cortant biomedical knowledge that cannot be obtained by other means, informed consent is still required.
Yes	No
	th in which the pregnant woman is a child, has assent been obtained from the child and permission from the s) or guardians?
Yes	No
7. Have induc	ements, monetary or otherwise, been offered to terminate a pregnancy?
Yes	No
	als engaged in the research have any part in decisions regarding timing, method, or procedures for a pregnancy?
Yes	No
9. Do individua	als engaged in research play any part in determining the viability of a neonate?
Yes	No
