

**California Health & Human Services Agency
Center for Data Insights and Innovation
Data Exchange Framework Implementation Advisory Committee
Meeting 1 Chat Log (10:00AM – 12:30PM PT, September 21, 2022)**

The following comments were made in the Zoom chat log by Implementation Advisory Committee Members during the September 21st meeting:

09:20:53 From Rim Cothren to Hosts and panelists:
Should John use his link to the meeting?

09:35:34 From Jonathan DiBello to Hosts and panelists:
Confirming that the IAC presentation deck is posted on the DxF website. Big thanks to Sheryl and the web team! <https://www.chhs.ca.gov/data-exchange-framework>

09:55:19 From DeeAnne McCallin (CPCA) to Hosts and panelists:
are you able to speak again to test audio? not sure if it was airpod or laptop speaker. Thanks

10:09:06 From Cameron Kaiser to Hosts and panelists:
Not sure I was heard: I'm on

10:29:23 From Kevin McAvey to Hosts and panelists:
Please raise your hand if you have any questions. We will take one from the line, if any.

10:29:43 From Kevin McAvey to Hosts and panelists:
Emma, can you call out anyone who raises their hand?

10:32:47 From Kevin McAvey to Hosts and panelists:
Thank you all. We'll take DeeAnne and Jonathan, then will need to move on w the agenda. Please feel free to submit any questions to me directly.

10:39:15 From Lori Hack to Hosts and panelists:
Agree with Norlyn 100%. Similar experience in Calaveras County and the Health District there. Counties need to think about how to leverage the staff together.

10:40:50 From Kevin McAvey to Hosts and panelists:
We have enabled the reply to "Everyone" feature. Please reply to "Everyone" in your comments.

10:54:16 From Kevin McAvey to Hosts and panelists:

Anything Members can do to share materials and information back with your networks would be especially important.

11:02:43 From DeeAnne McCallin (CPCA) to Everyone:

I suggest alignment with CalAIM's PHM Roadmap and Service as critical for prioritization

11:05:09 From DeeAnne McCallin (CPCA) to Everyone:

+1 to Lori Hack, reverse the order of 1-6

11:06:16 From DeeAnne McCallin (CPCA) to Everyone:

agree with "ljohns" in Q&A, please explain what "transactions patterns" means

11:24:29 From Troy Kaji to Hosts and panelists:

For the Real-Time data Exchange, to align with the vision statement "timely and secure access to usable information" the P&P should focus on both TIMELY and USABLE. For example, we have sent near real time electronic case reports on COVID and Monkeypox to CDC, but have yet to have any information flow back to our local health department.

11:24:59 From Kevin McAvey to Everyone:

Thank you, Troy, for offering the following comment: "For the Real-Time data Exchange, to align with the vision statement "timely and secure access to usable information" the P&P should focus on both TIMELY and USABLE. For example, we have sent near real time electronic case reports on COVID and Monkeypox to CDC, but have yet to have any information flow back to our local health department."

11:25:22 From Kevin McAvey to Everyone:

Please feel free to offer additional comments in the chat/Q&A, and we will review them offline.

11:25:40 From Lori Hack to Everyone:

@Troy agree!

11:25:41 From Troy Kaji to Hosts and panelists:

Second example is federal requirement that all hospitals send as broadcast notification near realtime ADT event notifications, which are not USABLE to care team members who receive

11:26:07 From Norlyn Asprec, CHEAC to Everyone:

@Troy agree as well.

11:26:37 From Troy Kaji to Hosts and panelists:

Real-time is only helpful if the whole cycle of information results in a **TIMELY** benefit to a patient

11:27:33 From Lori Hack to Everyone:

Is there a list of the members of this Committee?

11:27:46 From DeeAnne McCallin (CPCA) to Everyone:

Are meetings of IAC and Subcommittee meetings calendared? The more advance notice the better.

11:28:09 From Kevin McAvey to Everyone:

DSA Meeting agenda and date/time/log-in information can be found here:
https://www.chhs.ca.gov/wp-content/uploads/2022/09/CalHHS_DxF-DSA-PP-Subcommittee_Meeting-1_Sep-23-2022_Agenda_Final_v1.pdf

11:28:33 From Lori Hack to Everyone:

Will there be time to review the recommendations from the Subcommittee so we have time to gather input?

11:30:44 From Kevin McAvey to Everyone:

Lori, great questions. All DSA Subcommittee dates are now on the DxF website; the Subcommittee roster will be posted shortly, along with specific times/log in info for future meetings. Per usual, we will also be announcing them through our regular correspondence/communications.

11:31:05 From Kevin McAvey to Everyone:

@DeeAnne, I hope that answers your questions as well.

11:31:33 From DeeAnne McCallin (CPCA) to Everyone:

@Kevin, yes, thanks!

11:38:36 From Cary Sanders to Everyone:

Can we define what "good governance" means?

11:38:53 From Lori Hack to Everyone:

@David Ford exactly, ensuring the ones that exist meet the criteria we need for sustained service

11:40:21 From Kevin McAvey to Everyone:

IAC Members - thank you for all of your **EXCELLENT** feedback. We are going to try to keep pace to close on time, but **PLEASE** record any additional questions or input

in the chat (we will read it all), or feel free to email us at any time with additional comments.

11:43:25 From Felix Su to Everyone:

One potential missing piece from the QHIO criteria categories is the requirement for QHIOS to form a "network of networks"

11:43:41 From Felix Su to Everyone:

i.e., be able to request and respond to each other (and their users) for data

11:44:34 From Jonah Frohlich to Everyone:

@Felix Su: Good suggestion and agree this needs to be considered as a criterion for qualification

11:46:32 From DeeAnne McCallin (CPCA) to Everyone:

what is the 2 year timeline of the \$50M? July 1 2022 - June 30 2024?

11:49:43 From DeeAnne McCallin (CPCA) to Everyone:

can CDII or another entity or office elaborate (or provide offline to us via email or DxF website) the other grant programs looking to align with?

11:52:16 From Jonah Frohlich to Everyone:

DeeAnne - timeline authorizing the \$50M expenditure is as you stated: starting July 2022, through June 2024 (i.e., following state fiscal year).

11:52:53 From DeeAnne McCallin (CPCA) to Everyone:

what is "vendor identification"?

11:53:45 From DeeAnne McCallin (CPCA) to Everyone:

I suggest separating the HIO Onboarding Grants into two - both are necessary but I can see how they can be separate

11:54:50 From Camille Cooley to Everyone:

Listening Session Dates:

Oct 4 | 9:30-11am PT

Oct 17 | 3:30-5pm PT

11:55:10 From Lori Hack to Everyone:

Until the Signatory Group is better defined, then it will be difficult to determine who qualifies. For example, the County is not required but encouraged. SO do they get grant money or no?

11:55:33 From Lori Hack to Everyone:

Also, need to be clear on milestones for the grant to be used effectively.

11:57:32 From DeeAnne McCallin (CPCA) to Everyone:

To encourage CPCA members (FQHCs) to attend the listening sessions, it would be extremely helpful to know if they are eligible for this funding, esp if they participated in EHR Incentive Program (REC and CTAP) in advance of promoting these listening sessions

12:04:18 From Jonah Frohlich to Everyone:

Lori and DeeAne: AB 133 didn't give CDII authority to issue regulations which would further specify (beyond what's in AB 133) who is subject to DxF/DSA requirements. As such, part of the legislative proposal that will be advanced to establish the HHS Data Exchange Board should include authority to issue regulations that define with more precision what entities are subject to AB 133 (Courtney can elaborate or correct me if I'm misstating anything here)..

12:05:29 From Lori Hack to Everyone:

Yes Jonah you are correct. Maybe we create the incentive to be part of the signatory with the grant funding.

12:07:11 From Ryan Stewart to Everyone:

We should leverage some of the work done by the CARIN Alliance in this space

12:07:44 From Juliette Mullin to Everyone:

Thank you DeeAnne for your feedback in the chat about the HIO Onboarding Grants

12:10:17 From Ryan Stewart to Everyone:

ONC Project@US has a technical specification to standardize capturing patient demographics for improved matching

12:11:29 From Lori Hack to Everyone:

The September 13 session was really good. Keep them up as some stakeholders unaware of the AB133 requirements and the work done.

12:11:37 From Kevin McAvey to Everyone:

The first DxF Power is Information webinar is on the DxF website as a sharable deck and recording: <https://www.chhs.ca.gov/data-exchange-framework>

12:12:26 From Cary Sanders to Everyone:

Co-branding will be helpful from a communications standpoint

12:13:12 From Kevin McAvey to Everyone:

Thank you, Lori. Agree it was great. IAC Members, PLEASE circulate it to your networks.

12:13:21 From David Ford to Everyone:

It would be good if there was a way for orgs to share webinars and events they are doing about the DxF. For example, CMA did a DxF webinar for med-to-large medical groups at the end of June.

12:16:28 From Jonah Frohlich to Everyone:

@ David Ford: really good idea! We could leverage the DxF website to have a resource center, and work with prospective education grantees to develop materials that can be used at webinars like the one you hosted.

12:16:45 From Kevin McAvey to Everyone:

Jonah beat me too it. Great idea, David.

12:18:15 From Kevin McAvey to Everyone:

IAC Members, please send me/CDII any upcoming DxF webinars you have scheduled. At minimum, we can include in our DxF Community emails to support amplification; possibly even list on the DxF website.

12:19:03 From Linette Scott to Hosts and panelists:

- Interoperability and Patient Access Rule
 - o <https://www.cms.gov/newsroom/fact-sheets/interoperability-and-patient-access-fact-sheet>
- PHM Service

- Equity and Practice Transformation Grants
- o <https://www.dhcs.ca.gov/Documents/Budget-Highlights-Add-Docs/Equity-and-Practice-Transformation-Grants-May-Revise.pdf>

12:21:35 From Kevin McAvey to Everyone:

We will be moving to public comment shortly. If you are a member of the public, and would like to ask a question or make a comment, please raise your hand. When speaking, please announce your name and org, and please keep comments brief (<2 min) and respectful. We will take a few questions as time allows. Thank you all.

12:23:33 From Kevin McAvey to Everyone:

Turning to public comment for approx. five minutes next.

12:23:48 From Kevin McAvey to Everyone:

Please raise your hand if you have a comment or question.

12:24:19 From Troy Kaji to Everyone:

Will the CalAIM PHM therefore be more similar to existing QIP quality metric reporting or very different?

12:24:21 From Kevin McAvey to Everyone:

Questions/comments also welcome in the Q&A chat. We will be reviewing all written comments.

12:27:03 From Linnea Koopmans to Everyone:

I assume I will not be the only one taking the last two weeks of the year off, so I will not be available on 12/3. If others will also be OOO perhaps we consider finding another date in Dec

12:27:18 From DeeAnne McCallin (CPCA) to Everyone:

Hearing more about the Equity Practice Transformation Grants would be ideal
