1	TLM	Hi! Can you hear me? Thank you for taking the time to both communicate and entertain the question. This – just because – I’m sorry CHIO at Children’s Hospital Los Angeles – just because 21 st century cures and the California Data Exchange Framework and our onboarding to a QHIO are all tied up so much together, there has been a little bit of debate at our organization about how California Senate Bill 1419 around info blocking and giving the, if you will, provider time to review results which sometimes, as opposed to transparency and timely release of results, are going to work together. I’m just curious if there’s any comments from this group, or if you’re tracking on that as that California nexus with Federal law issue.
