Count	Name	Comment
1	Lucy Johns	Thank you, can you hear me? Yes, thank you. I asked in the question and answers. Whether the questions raised in this meeting and the answers to them could be recorded on the website for future reference. Many of the questions were really important. Many of the answers were really significant. So I'm wondering if CDII could start keeping a record of questions that are really significant for implementing the framework. Thanks.
