

**California Health & Human Services Agency
Center for Data Insights and Innovation
Data Exchange Framework Technical Advisory Subcommittee (TASC) Meeting
Q&A Log (12:00 PM – 1:00 PM PT, May 8, 2025)**

The following table shows comments that were entered into the Zoom Q&A by public attendees during the May 8, 2025, meeting:

Count	Name	Comment	Response(s) ¹
1	Lucy Johns	Yes re permitted purposes! Then derive use cases and start coding for them in queries? (So recipient knows purpose right away.)	Thanks for this comment. Thanks Lucy.
2	Jim StClair	The differentiation should be Attribute Based Access Control vs just RBAC	Thanks for that, Jim.
3	Lucy Johns	These Domains are excellent but they're technically not "Care Coordination," although coordinating with these services will be going on. "Care Coord" is defined in HIPAA if I recall. None of these others are.	We looked at programs that were providing direct services to clients that crossed health and social care. Happy to have a f/u conversation as I'm not sure I'm answering your question.
4	Lucy Johns	Use Case Domains...	
5	Jim StClair	100% Sophia, and those commonalities translate into semantic interoperability needs for data exchange	Thanks, Jim.
6	Lucy Johns	'@Sophia: What you're describing sounds really useful and possible! This seems low hanging fruit approach: one use case at a time. And this one is so critical for health. 👍	Thanks for starting this conversation, Lucy.

¹ Responses may have been provided by various Data Exchange Framework Implementation Advisory Committee Members or Center for Data Insights and Innovation staff.

7	Lucy Johns	One element of Community of Practice should be: 1-2 people from this group and/or Rim attends the whole time to tease out potential future commonalities, to leverage one use case for others! To find the commonalities in social services (if there are any!).	Yes, that is the plan.
8	Lucy Johns	'@Corey in chat: Maybe elaborate what Gravity did across so many Domains. Common terminology...not whole frameworks. ;-)	Thanks, Lucy.
9		Would like to comment /ask on “ common social care data payloads “ and “ top 5 referrals “ re Michael, and Julie and Ken comments re Gravity/ FHIR and “ practical bottoms up “ approach at a County Level.	
10	Lucy Johns	Rim: Consent at another meeting again please?	

Total Count of Zoom Q&A comments: 10
