1	Lucy Johns	Thank you, can you hear me? Yeah, thank you, Rim, and everyone in this group. I just want to emphasize that if this were a simple problem, we would have solved it a long time ago. We've been talking about this my entire career, and probably careers of many on this call. So, I'm wondering if Manatt or state staff could do a one-pager, what are the barriers to solving this problem? Maybe that would help to organize the conversation. If we know what the barriers are and we go through them one by one. Can we fix this in a way that works for all that are represented here, and many who are not. Thank you.
