3	Lucy Johns	ASCMI Compliant…Does that imply/require certification in some form? Or simple assent?	For ASCMI, perhaps yes, some "approved" form. But for today's conversation, that is a question to be addressed and considered.
4	Lucy Johns	Thank you Dr. Scott for sensitivity to certain types of consents. Consents need to be segmented: for this but not for that and only for this time…	Thanks for your comment, Lucy.
5	"Mary-Sara Jones, Independent"	Regarding the 80/20 approach, will this include the ecosystem for BH and CalAIM POFs? For example, that would need to include Juvenile Justice, Child Welfare / Foster Care (w/ability to determine who has consenting rights), Behavioral Health, schools, …. Is that the intent? Or is focus more limited? That will be important to thinking about the model.	
6	"Dan Chavez, SCHIO"	Please publish the chat transcript with the meeting notes	Thank you, Dan. All post meeting artifacts--including the meeting recording, transcript, chat, Q&A log, meeting deck, and

9	Lucy Johns	Slack conversation: PI be sure conforms to "public" requirement(s) for state policy making. Recs from this committee are "policy" recs for someobyd.	Thanks for your comment, Lucy.
10	Karen Ostrowski	On the topic of patient matching, just drawing awareness to the MATCH IT Act which has been reintroduced in Congress. It aims to improve patient matching. A broad coalition of organizations (n= 100+) also recently sent a letter to Congress advocating for the removal of the rider prohibiting HHS from advancing patient health identifier standards. Both of these will go a long way towards addressing the issues related to digital identity and patient matching as it pertains to consent.	
11	Lucy Johns	Confirm date next meeting please	Next TAC meeting (#2B) will be on Thursday, June 12, 2025, 12:00 PM – 1:00 PM PT
12	"Dan Chavez, SCHIO"	Should the ASCMI results be shared with this group??
